

### **Sophisticated and Creative Testing of Machinery Still in Use Results in a Significant Seven Figure Recovery**

Sometimes, creativity and ingenuity are necessary in determining the real cause of a fire. In this case, Stutman Law's client experienced a very large loss involving a fire at a large cheese processing facility. The fire did not cause much direct fire damage to the building, but did cause significant smoke damage. The lack of direct fire damage allowed Stutman Law to get creative in determining the cause of the fire.

### **Stutman Law Obtains Victory for Subrogated Carriers in Kitec Class Action Settlement**

For several years, Stutman Law has actively negotiated with counsel involved in the Kitec class action settlement regarding the claims process applicable to subrogated insurance carriers. Stutman Law has also sought judicial intervention on behalf of the insurance industry concerning the claims process. The Firm's efforts have paid off, as a new, carrier-specific claim form was recently approved by three different courts and may now be used by insurers to submit reimbursement claims for property damage to the Kitec class action settlement administrator. Stutman Law's efforts have resulted in a victory for the entire subrogation industry.
